

## Question 3

---

Write a Php script to display user details in table format, use anchor tag to delete each record in the table and create a delete button to delete the table (Insert the records manually in the database).

***connect.php:***

```
<?php
$servername = "localhost";
$username = "root";
$password = "";
$dbname = "mydbaa";
// Create connection
try {
    $conn = mysqli_connect($servername, $username, $password, $dbname);
} catch (Exception $e) {
    die("Some error occurred");
}

?>
```

***insert.php:***

```
<html>
<body>
    <a href="delete.php">Delete Table</a> <br><br>
    <?php
    include_once("connect.php");
    ?>

    <form action="" method="POST">
        <table border="1">
            <tr>
                <td>ID</td>
                <td><input type="text" name="id"></td>
            </tr>

            <tr>
                <td>Name </td>
                <td><input type="text" name="name"></td>
            </tr>

            <tr>
                <td>Age</td>
                <td><input type="text" name="age"></td>
            </tr>

            <tr>
```

```

        <td colspan="2" style="text-align: center;"><input type="submit"name="insert" value="insert"></td>
    </tr>

    <?php

    if(isset($_POST['insert'])) {
        $id = $_POST['id'];
        $name = $_POST['name'];
        $age = $_POST['age'];

        $sql="insert into details values('$id', '$name','$age')";
        $res=mysqli_query($conn,$sql);

        if($res)
            echo "Value is inserted";
        else
            echo "Value is not inserted";
    }
